KNECK OFFICIAL

Home Science — Paper 3

441/3 • ORIGINAL REVISION SET 01 • Planning 30 minutes; practical 1 hour 15 minutes • 100 marks

Name: _____ Class: _____ Date: _____

Independent KCSE-style practice. Not issued, endorsed or predicted by KNEC. These are original questions, not leaked or past official papers. Component numbering is checked against the KNEC 2026 timetable. A teacher should review these practice materials before formal classroom assessment.

CANDIDATE INSTRUCTIONS

FOODS AND NUTRITION PRACTICAL. Plan first, then cook under adult/teacher supervision. Consider food allergies, safe knife/heat use and available fuel. The menu is an original practice task, not official confidential instructions.

Use a separate answer booklet. Show working where appropriate. The marking guidance begins after the END OF QUESTIONS page; do not consult it until you finish. Practical and project components require the stated equipment and teacher supervision, not merely a printed worksheet.

SUPPLIED MATERIAL / RESOURCE

Suggested ingredients for one serving: dry rice 75g, pre-cooked beans 150g (cooked and safely chilled), onion 30g, tomato 60g, cabbage 100g, carrot 50g, cooking oil 10–15ml, safe water, modest salt/spice. Adapt for availability/allergies while preserving nutritional balance. Equipment: cooker, two pans with lids, clean board/knife, spoon, measuring items, plate/bowl. Wash hands, use safe water, heat food thoroughly and serve promptly.

PLANNING AND COOKING

Complete both planning and practical work.

1. PLANNING (30 minutes). Plan a balanced lunch for one active adolescent using a cereal or starchy staple, a protein source and at least two vegetables; include a safe drinking option. Produce a menu, ingredient quantities, equipment list, 75-minute time plan and cost estimate. State two nutrition reasons and two hygiene precautions. [25 marks]

2. PRACTICAL: prepare and cook the chosen staple and protein dish. Use safe economical methods, correct doneness and suitable seasoning. Demonstrate separation of raw and ready-to-eat foods and proper handwashing. [30 marks]

3. Prepare vegetables with minimal waste and nutrient loss. Present the complete meal attractively in an appropriate portion with safe drinking water. Explain how your choices contribute to a balanced diet. [25 marks]

4. Clear and clean work area safely; cool/store leftovers promptly if any. Evaluate flavour, texture, nutrition, cost and timing, giving two realistic improvements. [20 marks]

END OF QUESTIONS

MARKING GUIDANCE

Home Science • Paper 3 • Set 01

Suggested answers and assessment guidance, not an official marking scheme. Accept equivalent correct reasoning, valid examples and properly justified alternative methods. Marks for an item must not exceed its printed allocation. For essays use relevant textual evidence and the rubric; no plot summary alone.

PLANNING AND COOKING

1. (25 marks) Balanced feasible menu6; realistic quantities4; equipment3; logical time plan5; cost record3; nutrition2; hygiene2. One possible menu: rice, bean stew, cabbage/carrot mix, water. Pre-cooked safely stored beans may be supplied because dry beans cannot cook safely within 75 minutes.

2. (30 marks) Safe preparation6; sound methods/sequence8; correct doneness/texture8; seasoning/balanced portions4; economy/time management4. No tasting of unsafe raw mixtures. Teacher must stop unsafe actions immediately.

3. (25 marks) Washing/preparation5; minimal waste4; appropriate short cooking/texture6; safe attractive service5; accurate nutrient explanation5.

4. (20 marks) Clean workflow/equipment6; waste/safe leftover handling4; evidence-based evaluation across criteria6; two improvements4.

REVISION CHECK

Mark your work, list three misconceptions, revise those topics and attempt the incorrect questions again without the guide. These topics are revision priorities, not a forecast of the real examination.
